GLOBAL PROGRAMMING INSTRUCTIONS

TEXT

- ANY TEXT RESPONSES COLLECTED SHOULD BE FORWARDED IN A MICROSOFT EXCEL SPREADSHEET MATCHED BY UNIQUE ID (QID.)

WEB VS. PHONE

- The “(DO NOT READ)” response options should be shown in phone only unless otherwise specified
- In the WEB program, respondents should be able to “skip” any questions and be coded as 999. Phone respondents should have a response for every question they are asked (i.e., not skipped due to a skip pattern).
- Interviewer notes and instructions should be shown in the phone program only, unless otherwise specified.
- Some interviewer notes/instructions should be modified and be shown to all respondents for web. These will be denoted with “(WEB NOTE ONLY:...)” These notes should be placed below the question-text in italic font.

NON-RESPONSE CODES

- BLANKS ARE DENOTED BY A 999 AND CORRESPOND TO SKIPS AT A GIVEN QUESTION IN THE “WEB” MODE
- CODES IN THE “PHONE” MODE MARKED WITH A “V” OR “VOL.” STAND FOR “VOLUNTARY” AND SHOULD NOT BE READ TO RESPONDENTS

MULTIPLE - RESPONSE

- Implement a hierarchy for the few questions where a hierarchy may be warranted. On questions where a hierarchy is implemented, SSRS will create a separate variable in which the multiple-response options will be reassigned according to the hierarchy that is put in place.

PN – PLEASE CALCULATE THE RESPONDENT’S RESPONSE RATE. THIS WOULD BE CALCULATED BY TAKING: THE TOTAL NUMBER OF QUESTIONS ASKED – THE TOTAL NUMBER OF SKIPPED QUESTIONS (SHOULD HAVE BEEN CODED AS 9) OVER THE TOTAL NUMBER OF QUESTION ASKED.

- **EM1: [ERROR MESSAGE]: (PN: IF A RESPONDENT FAILS TO PROVIDE A RESPONSE TO SCREENER QUESTIONS (e.g. – SC2, SC2a, SC3a, SC3b, SC4a, CP1 Q710, Q710a) AND THE FIRST SURVEY QUESTION THAT IS SKIPPED: EM1 SHOULD BE PRESENTED. THE ERROR MESSAGE SHOULD APPEAR ABOVE THE QUESTION MISSED (ON THE SAME SCREEN) IN BOLD BLACK TEXT.)**
- **EM1 “Vos réponses à ces questions sont très importantes pour nous. Pouvez-vous prendre un moment pour répondre à la question ci-dessous ?”**

NOTE: THE FOLLOWING QUESTIONS WERE USED FOR GERMANY'S SELECTION PROCESS AND REPLACE HH1-SC5 AND CP1-CP3 IN GERMANY ONLY.

To identify exactly who should be interviewed in your household, we first ask a few short statistical questions. Would you be kind enough to tell us how many people live in your household who are 18 years old or older, including yourself?

If necessary: This theoretically gives every household member the same chance to take part in our survey. The aim is to achieve the best possible reflection of the population in the Federal Republic! All household members who live and work together and who finance their living together must be included.

yes 01

no 02

In order to make a selection, I would need the age and gender of these people from you. Please start with yourself and then continue in order, starting with the youngest person. Our random sampling identified the <SELS>-year-old <BER1>e person in your household who is to be interviewed. Is that you or can you get the person on the phone?

- 10: KP (contact person) is ZP (target person)
- 11: KP gets ZP
- 12: KP: ZP not there/ can't at the moment - make an appointment => /CB
- 13: KP refuses on behalf of ZP => /END
- 14: KP: TP is definitely/permanently unable to answer (illness; etc.) => /END
- 15: KP: TP does not understand enough German => /END
- 16: KP: ZP is absent for a long time or cannot be reached during field time => /END
- 17: KP: ZP is warped => /END
- 18: KP: TP is deceased => /END

<INSERT KISH SELECTION GRID>

First of all: The survey is of course voluntary. In addition to questions about yourself, there are also questions about your health. Your telephone number will be stored separately from the survey results - i.e. your answers - and will be deleted immediately after the interview has been completed. The Robert Koch Institute only receives the survey results for scientific evaluation in anonymized form and therefore without any conclusions being drawn about you personally. Of course, you can choose not to answer individual questions at any time if you wish. If you do not participate, you will of course not suffer any disadvantages. Further information on data protection and the content of the study can also be found on the Robert Koch Institute website at www.rki.de/ihp. You can cancel the survey at any time. In this case, we will delete all data that has already been collected up to that point. Are you over 65 years old and would you like to take part in this survey?

On request: The interview lasts around 20 minutes, depending on your personal situation. Upon request: Revocation: As soon as the interview has been completed and your telephone number has been deleted, the data record can no longer be assigned to you. From this point on, you can no longer revoke your consent and no longer have your data deleted.
